Kate:

I updated the ICP for Gold King Mine but I will need to add some phone numbers and other information tomorrow as I don't have access to a directory right now and will need to get some information from you to do so. I just spoke with Nadia and she is working on the 213 RR excel spreadsheet and will have something tomorrow on this. The org chart is a pdf so cannot be changed by me. I can work some more on this Monday when I am in the office. MTA

OK, thanks

I have a few more projects I would like to send your way but will wait until you are done with the IAP.

The 213 RRs need a logging process established (basically an excel spreadsheet)

If you can look on line for 213rr job aids as a next step after the IAP that would be great.

I will send you support docs for the iap... current staffing and eoc schedule

Can you help Draft an IAP for the Gold King response using the Soudelor documents as a template?
